

setupfee.txt

05-10-2010

From: Global Check
To: All Offices

***** IMPORTANT NOTICE *****

Beginning today GCS will be billing merchants for all set up fees charged. This will include the ARCNET install/app fee. The setup fees may be waived or lowered as always but the sales office is not to collect them directly from the store from this day forward.

We are doing to this to streamline the operation and minimize the number of errors that have occurred due to it not being made clear who was collecting the fees from the store. The setup fees charged will be included with the commission upon install as is normally the case.
